

MMC (Multi Media Card)

TOP RAM specializes in high capacity, high performance data storage and communication media. Our MMC card is designed for wide range of applications. Compatible devices include Cell Phones, PDAs, MP3 Players, Digital Cameras, Smart Phones, Global Position Systems, and many other portable electronic devices. This card can be used in devices with MMC or SD slots. Available in 64, 128, 256, 512mb, 1GB and 2GB densities.

TRMMC256

TRMMC512

TRMMC1G

Features:

- Design for portable and stationary electronic devices.
- Support the interface of the MMC or SD Slots.
- Capacity: 64MB, 128MB, 256MB, 512MB, 1GB and 2GB.
- Support Error Correcting Code (ECC) function to detect and correct errors.
- 100% Compatibility: Compatible with all digital cameras, digital music players, mobile phones, PDAs, and other devices featuring MMC and SD slots
- Automatic error correction and retry capabilities
- No battery required and Low power consumption
- +2.7 Volts to +3.6 Volts operation.
- Dimension: 24x32x1.4 mm
- Reliability: Data retention is up to 10 years.
- Durability: Min. 100,000 erasing cycles, 1000,000 hours.
- Weight about 1.5g

Spec:

- Automatic error correction and retry capabilities
- No battery required and Low power consumption
- Operation Volt: 2.7 V/3.6V
- Operation Temp.: -25°C(-13°F)~85°C(185°F)
- Dimension: 24x32x1.4 mm
- Reliability: Data retention is up to 10 years.
- Durability: Min. 100,000 erasing cycles, 1000,000 hours.
- Weight about 1.5g
